

WHO WE ARE

Compass Group is a St. Louis-based private investment firm that partners with small-to-medium sized private companies that prioritize people, values, and results. The firm launched in 2015 to leverage the group's experience as entrepreneurs, business owners, and executives to invest alongside owners and management teams of closely held businesses with a focus on long-term value creation. The firm recently completed the successful closing of its first pooled fund of \$255 million. We are seeking to partner with high-quality companies and offer the capital, operational expertise, and strategic guidance to support management teams in accelerating growth, exceeding historical performance and creating market leading businesses.
